

Grandfathered Groundwater Rights, General Industrial Use Permits, Exempt Wells and Associated Water Withdrawals in the East Salt River Valley Sub-basin:

The following tables are included in this Appendix:

Table 1	General Industrial Use (GIU) Permitted Wells and Use	Page 2 of 45
Table 2	Exempt Wells by Service Area	Page 3 of 45
Table 3	Type I Wells and Use	Page 5 of 45
Table 4	Type II Wells and Use	Page 9 of 45
Table 5	Exempt IGFRs and Allotments	Page 16 of 45
Table 6	Non-Exempt IGFRs and Use	Page 17 of 45

Located after each table is information related to table data to include definitions and sources.

*** Regarding the ESRV GIU Information Provided in Table 1.**

Column	Description
Well Registry ID	The 55 number.
MPA 90	The municipal planning area
GIU Number	The 59 permit number
2004 Groundwater Pumped	The amount of groundwater pumped by the specific well.

*** Regarding the ESRV Exempt Well Information Provided in Table 2.**

Column	Description
Service Area Name	Service Area Name as found in the Registry of Grandfathered Rights. The exempt wells are located within the water service areas noted but are not owned or operated by the municipal provider. Instead, they are owned and operated by individuals, primarily for domestic use.
Service Area Number	The "56" number as found in the Registry of Grandfathered Rights
MPA 90	The Municipal Planning Area
Number of Exempt Wells	The number of registered exempt wells in the East Salt River Valley having an "N" or is null in the "Wells Cancelled" field in Wells 55.

*** Regarding the ESRV Type 1 Well Information Provided in Table 3.**

Column	Description
Type 1 Certificate Number	The Type 1 Certificate Number
Primary Mailing Address Owner	The owner DWR has designated as the one to receive correspondence from DWR. There may be more than one owner for these rights, but in order to make the query results cleaner, only the Primary Mailing Address Owner is listed.
File Status Date	The date the certificate was issued.
Retired Acres	The number of retired irrigation acres associated with the Type 1.
2005 Allotment	The amount permitted to be used annually.
2004 Pumpage	The amount of groundwater pumped by wells associated with the Type 1s in the ESRV.
2004 Groundwater Reported Received by the GIU in 2004	The amount of groundwater reported received by the Type 1. The well(s) that provided the groundwater is also in the ESRV.
Groundwater Reported Delivered by the Type 1 in 2004	The amount of groundwater, pumped by wells in the ESRV and associated with the Type 1, reported delivered off.
Type 1 2004 Use	Pumpage plus groundwater received minus delivered.
First MPA	The municipal planning area in which the Type 1 is located.
Second MPA	It is possible for a Type 1 to be located in more than one MPA. For the ESRV, those that were had NO ID.

Miscellaneous Notes on ESRV TYPE1S 2004 USE:

- The list includes only those Type 1 Non-Irrigation Grandfathered Rights for which ADWR has current (so far as we know) acreage and ownership information.
- The list was generated by querying for rights that are labeled as Type 1s in the ESRV in our Use_Right_58 Arcmap layer, rather than by sub-basin designation in our Registry of Grandfathered Rights.

*** Regarding the ESRV Type 2 Well Information Provided in Table 4.**

Column	Description
Well Registry ID	The 55 number.
MPA 90	The municipal planning area
Type 2 No.	The Type 2 No. the well is associated with
2004 Groundwater Pumped	The amount of groundwater pumped by the specific well.

Miscellaneous notes on Type 2 Wells in ESRV:

- ❑ It is possible for the same well to be associated with more than one Type 2.
- ❑ It is possible to have a Type 2 Certificate with wells in more than one sub-basin.
- ❑ It is permissible for a Type 2 to receive water pumped by another entity, but the well from which the water is pumped should appear on the Type 2 Certificate.
- ❑ Pumpage that occurred in 2004 by a Type 2 that has since been conveyed will not appear on this list. (Very few Type 2s were conveyed in 2004).

Table 5. Exempt IGFRs and Allotments - 2004

TE	52	209.53	836.76
TOTAL	2,304	10,856	48,156

*** Regarding the ESRV IGFR Information Provided in Table 5.**

Column	Description
MPA	The municipal planning area in which the majority of the irrigation acreage associated with the IGFR is located.
NUMBER OF IGFRS	The tally of exempt IGFRs in each MPA.
TOTAL IRRIGATION ACRES	The number of irrigation acres associated with small exempt IGFRs in each MPA.
TOTAL ASSOCIATED ALLOTMENTS	The 2005 annual allotment associated with small exempt IGFRs in each MPA.

Miscellaneous Notes on EXEMPT IGFRS BY MPA IN THE ESRV:

- Includes only those Irrigation Grandfathered Rights exempted from conservation requirements pursuant to § A.R.S. 45-563.02. Only those IGFRs with 10 irrigation acres or less, do not withdraw groundwater for use on a Type I Non-Irrigation Grandfathered Right, another IGFR with more that ten acres, or for a service area use, and are not part of an integrated farming operation, qualify as exempt.
- Once an IGFR has been designated exempt, ADWR does not track its land use or individual water use. Many IGFRs were designated exempt in 1994, after the passage of § A.R.S. 45-563.02.
- This table was generated by a query for rights labeled as IGFRs in the ESRV in Use_Right_58 Arcmap layer. If an IGFR has more than one polygon associated with it, and the polygons are in two different MPAs, the IGR is designated as being in the MPA with the largest polygon.

Table 6. Non-Exempt IGFRs and Use - 2004:

*** Regarding the ESRV Information Provided in Table 6.**

Column	Description
IGFR No.	Irrigation Grandfathered Right Certificate Number.
MPA	Municipal planning area in which the majority of the irrigation acreage associated with the IGFR is located.
Primary Mailing Address Owner	Owner DWR has designated as the one to receive correspondence from DWR. There may be more than one owner for these rights, but in order to make the query results cleaner, only the Primary Mailing Address Owner is listed.

Irrig. Dist.	Irrigation district in which the IGFR is located, according to the Registry of Grandfathered Rights database.
Irrig. Acres	Number of irrigation acres associated with the IGFR as found on the Certificate of Irrigation Grandfathered Right.
2005 Allotment	The amount of the annual water allotment.
File Status	File status code as found in the Registry of Grandfathered Rights. Codes starting with A are more than 10 acres, while codes starting with N are less than 10 acres but not exempt from conservation requirements.
2004 GW Withdrawn	The amount of groundwater pumped by wells associated with the IGFR.
2004 GW Reported Delivered Off	The amount of groundwater reported delivered off by the IGFR. The water may have been delivered to another IGFR or to a non-ag use.
2004 GW Received Primary Irrig. Dist.	Amount of groundwater reported by the IGFR to have been received from the irrigation district in which the IGFR is located.
2004 GW Received Diverted Other Sources	Amount of groundwater the IGFR reported as received from a source other than an irrigation district, such as a neighboring IGFR, or a non-ag source such as a dairy.
2004 Total GW Used	2004 GW withdrawn minus 2004 GW delivered off plus Received Primary Irr. Dist. plus 2004 GW Received Diverted Other Sources.

Miscellaneous Notes on ESRV Non-Exempt 2004 USE:

- The list includes only those Irrigation Grandfathered Rights for which ADWR has current acreage and ownership information.
- The list was generated by querying for rights that are labeled as IGFRs in the ESRV in our Use_Right_58 Arcmap layer. If an IGFR has more than one polygon associated with it, and the polygons are in two different MPAs, the IGR is designated as being in the MPA that contains the largest polygon.
- GSF water use is not included in this table.
